About Us.

As young teens in a small Ohio town, Jeff and Sherry Jagers worked at an ice cream cone manufacturing company. After they both served over twenty years with this company, they decided to start their own ice cream cone manufacturing company. In 2002, the Jagers family started Jagger Cone Company Incorporated.

With over 60 years of combined experience, Jagger Cone Company has the experience and expertise to fill all the needs of its customers. Today, Jagger Cone Company is one of the largest ice cream cone manufacturers in the country. Located in Stryker, Ohio, the company operates out of a 138,000 square foot facility.

Family owned and operated, Jagger Cone Company is ready for you and your customers to experience the best tasting cones on the market!

More Than Cones.
